

WATERGATE COMMUNITY ASSOCIATION

October 8, 2009

ATTENTION C-bldg RESIDENTS:

WATER SHUT-OFF NOTICE

EBMUD personnel will be on-site on Monday, October 12, 2009 between 10:30 a.m. and 12:30 p.m. to test the accuracy of the water meter for your building.

As a result, the water to your building will be a temporarily turned-off while the equipment is tested. Watergate staff will be present during the testing in order to verify that the time in which any one building's water is turned off is minimal. For this reason it is impossible to commit to a schedule. Once your water is back on, it should not be necessary to turn it off again.

In order to prevent flooding, please make sure all faucets remain in the "off" position.
